WIT AND HUMOR.

A Cow Story.—Among the travelers toward the western part of Kansas this spring were several gentlemen from this city, and among these were four or five, constituting a separate party, who started with a fine cow. About two weeks ago the friends in Alton, Ill., of one of the members of this party received a letter from him, dated "Kansas, two hundred miles from home," in which he spoke of "old Brindle," saying that she made the party a great deal of trouble, &c.

A few days after the receipt of this letter the gentleman to whom it was addressed, living in Middletown, was astonished at finding, early one morning, a cow exactly like "old Brindle" standing at his gate. He could hardly believe the evidence of his own eyes, but an examination convinced himself and family that it was the very cow herself. How long she remained with the party after the time of writing the letter, two hundred miles from home, is unknown. Certain it is that she had found her way home across the country, for at least that distance—not stopped by rivers, creeks, swamps or anything else. The story seems fiction, but it is undeniably true, as any one who wishes can assure himself.—*Alton Courier, May 31.*

The Daily Herald.

This Daily was just one year old yesterday, the 6th of June. During this short life it has more than paid its way, and its present prospects are extremely flattering to Publisher and Proprietor. It has had the frowns upon the one hand of the covetuous and the constant indignation of a few who would be pleased to gag out of countenance every laudable enterprise but their own selfish undertakings; while upon the other hand, the real business Public, the just and equitable position of our citizens have been constant in its support from the very beginning; and to day its subscription list surpasses our most sanguine expectations, and its advertising columns, will show to its daily readers how the busy world works itself into its support.

The *Herald* has no new claims to offer; nor does it offer, at this time, any stronger inducements to its patrons than its heretofore persistent course in laboring and contending for the Right; and for the general interest and the good of all, which has ever characterized its course from the beginning.

Its present Editor, though yet in his youth, is every day growing older. And experience, that matchless old Schoolmaster, who holds out to him the sure "bow of promise"—flatters him with the triumphant success of the *Herald*, though it may be obliged to wade through the labrinths of contending factions, and discordant elements in its future progress; and age, with its hoary head, may canopy our brow with its laurel wreaths of wisdom.

Fourth of July.

No steps have yet been taken to make arrangements for the celebration of the coming Anniversary of the declaration of Independence, and, as it takes considerable time to make arrangements, it is probable that we shall have no celebration, unless immediate steps are taken. Let us all go to-morrow evening to the Eagle Hotel, and join together, heart and hand for a Celebration that is a Celebration. Let Old Batavia's hills resound with the echos of the cannon, and let us *all* in a body turn out and have a glorious Old Fashioned good time. Hurrah for WASHINGTON the father of his country! and celebrate in a fitting manner the anniversary of our Independence. Who will move in the matter?

The Republican General Committee met last evening in Albany, pursuant to the regular call of the presiding officers of last General Committee, under the direction of that Committee. There were 28 delegates present. Chas. P. Kirkland was unanimously chosen President. The delegates present all presented regular credentials of election. This is claimed to be the regular meeting of the Committee, only twelve delegates present at the morning meeting, being admitted to be regularly chosen, the remainder having been either contested or substitutes.

A man named Cole has been arrested at Montague, Essex county, N. J., on a charge of having poisoned his wife to death during her confinement in child bed. The facts unspired show that Cole and the family physician, Dr. Wickham, had conspired together to commit this horrible crime, an insurance of $2,000 having been first obtained on the life of Mrs. Cole.—Cole is in custody, but Dr. Wickham managed to escape.

The difficulty among the sources on board the Russian ship General Admiral, hunting on threatening last night, this the aid of the Police was invoked, and upward of 40 of the mutinous sailors put in irons.

Joseph Fowler, Samuel F. Nott and Rensaer Combs, all influential business men of New York city, have died within the past few days.

A shocking accident occurred to the family of Mr. Clark Smith, of Canterbury, Orange county, a few days since, by which their daughter was so dreadfully burned that it is feared her recovery is impossible. Mr. and Mrs. Smith were badly burned while trying to extinguish the flames surrounding their suffering daughter. It appears that the daughter (a beautiful young girl) aged sixteen years, was prepairing the fire for the tea, when her dress caught fire. Her cries attracted her father and mother, who rushed to her assistance and attempted to extinguish the flames, which they finally accomplished, but not before the body of the unfortunate girl was blistered from head to foot.

A letter in the *Debats*, referring to the Zouaves, says: "One fact will give an idea of the incomparable African troops, with whom the Austrians are not yet acquainted. For six months the Third Regiment of Zouaves has been on campaign; since the 15th of October the men have not slept fifteen nights in Barracks; three or four weeks ago they were at Tugguri; they were embarked at almost a moment's notice, and since their arrival in Piedmont have been encamped in the midst of rain; and yet the regiment has not ten men sick."

Despatches from Charleston state that the banks there have agreed to carry $700,000 of the bills of Frazer & Freeholm and protect the cotton in Liverpool until the first of September. This will enable the house to go on again.

"The Strongest Man in the World" Prostrated.

At Boston the other evening, Dr. Gen. B. Winship, who is said to be the strongest man in the world, was announced to deliver a lecture. The hall was filled, and the Dr., after having commenced his lecture was seen to tremble and fall to the floor. He appeared again and again swooned, when by the advice of physicians he was dissuaded from attempting to go on with his lecture. It is said that on being taken from the hall, his heart nearly ceased to beat. Dr. W. accounts for the unfortunate affair on the ground that the atmosphere of the hall was close and impure. His friends, however regard it as caused by the peculiarity of appearing before a public audience for the first time.—Dr. W. has for several years given much attention to the subject of physical education. He is twenty-five years of age, five feet seven inches in height, and weighs one hundred and forty-three pounds. He graduated at Cambridge five years ago.—He can raise a barrel of flour from the floor to his shoulder; can raise himself with either little finger, till his chin is half a foot above it; can raise 200 pounds with either little finger; can put up a dumb bell of 141 pounds; exercises daily with two dumb-bells weighing 100 pounds each, which he can raise alternately above his head; can lift with the hand 220 pounds dead weight, without the aid of straps or belts of any kind. Topham, the strongest man in England, could raise only 200 pounds in the same way; and the celebrated Belgian giant could lift only 600.—Dr. W. was prepared to exhibit all these feats, but the unexpected turn which events took prevented it. The strong man proved to be an infant.—*Bef. Ex.*

THE MILK BUSINESS.—Some idea may be formed of the extent of the milk business by the quantity which arrives in New York, daily, through one channel. About two hundred and forty single and double wagons cross the Jersey City ferry every night for their supply of milk, which arrives principally by the New York and Erie road. The wagons average eighteen cans of forty quarts each, making a total of 177,200 quarts. The freight upon milk on the New York and Erie road amounts to about $1,000 per day.

PARE HIS ARGUMENT.—We are informed by Mr. Wilcox of the American Hotel, that the "Dr. Hamilton, whose name has been flaming on daily posters in town during the last two weeks, as a cure of "female diseases," left town on Saturday afternoon without settling his board bill, and forgetting also to pay our neighbors of the *Journal* a good round printer's bill. He is an undoubted swindler, operating under an assumed name, and his conduct has not been without suspicion that all was not right. It has been noticed that telegraph dispatches from Toronto, directed to Dr. Hall, were taken off the letter rack at the American by the gentleman himself, and quietly pocketed when he supposed nobody observed him. His true name is said to be McDonald.—*Lockport Advertiser.*

—During the last five months no less than fifty murders have been committed in four cities—New York, Philadelphia, Boston and Chicago.

NEWS SUMMARY

—In the Essex county (Mass.) Court of Common Pleas, at Newburyport, Abraham Norris, for biting the nose off a woman, was sentenced to five years imprisonment in the State Prison.

—The Oshkosh Democrat comes down rather severely upon the Bank of Oshkosh for what it calls their pecurious policy.—The bank was burnt out, and they are nailing up a sort of shanty, which was contracted to be built with all the counters and conveniences necessary, for $150.

—John Minor Botts does not propose to fight O. Jennings Wise, as he had intimated before the Virginia election. Benevolence has driven revenge from his heart and prompted him to write a long letter to the Richmond Whig, in which he declares his purpose to prosecute Wise for libel, and to award the damages thus obtained to some benevolent society.

—The negroes of New England have called a convention, to be held in Boston, on Monday, August 1st, 1859, to take in consideration the subjects connected with the moral, social, and political elevation of the colored race, in the New England and other States.

—Travel to Europe seems to increase as the season advances, and this, too, in spite of war and rumors of war. The two steamers on Saturday had an aggregate of six hundred and fifty passengers, a large portion of whom, the Evening Post says, were families from the Southern States.

—Gen. David E. Twiggs, was, at last account, (April 26,) lying dangerously ill at San Antonio, Texas. His physicians have given up all hope of his recovery, and the General had made his will and given directions as to his funeral. San Antonio seems to be fatal to commanding Generals of the Texas Departments, Generals Worth and Brooke having met their death in that locality.

CAPT. PILSBURY ACCEPTS.—We learn from the New York *Tribune* that Capt. Pilsbury has consented to accept the office of Commander-in-Chief of the New Police Force. We understand the salary will be $10,000 a year. The Captain is worth it. He will enter upon the duties on 1st July next. It is said that the Captain will throw up the Albany Penitentiary.—This will lead to a fresh excitement among our office-seeking friends.

THOMAS BARRETT'S
3rd ANNUAL COTILLION
PARTY!

The undersigned would respectfully say to the Public, and Pleasure seeking community and to all who "tip the fantastic toe," that he will give again, at Hibbard Hall, on Friday, the 17th inst., his THIRD ANNUAL COTILLION PARTY. And he would most earnestly solicit a continuance of the liberal patronage of the merry dancer, and all who love the frolic of the Ball Room.

And let the merry waltz go rushing,
With fairy footsteps to the bound!
While strains of music dance the hour
And music joys to each impart!

MRS. M. M. RUSSELL

Having returned from New York with a choice and full supply of New Millinery Goods, is now ready to offer to the Public, on accommodating terms, a stock which will vie with the very best in Western New York. Having been brought here by Agents not specially selected by herself, she does not hesitate to say that the assortment is unsurpassed in Western New York. Those wishing to purchase will find it to their advantage to call and examine for themselves, as she is determined to sell at prices which cannot fail to please. Ladies from the country, who have been long in the habit of coming to this city to their old customers, will find it to their advantage to call at this time, where fashionable goods can be had, at very small profits. The public are invited to call and see what they can get elsewhere, at the same prices, before they will not be inclined to go elsewhere after they have once been to Mrs. Russell's.

The cash trade is greatly solicited, as by small profits and cash sales she can afford to sell at very low prices. She is fully prepared to execute all orders in the line of trade, and as promptly and with as fine workmanship, as can be done in any establishment in the country. Please call and examine for yourselves, at the sign of the Bonnet.

BY TELEGRAPH.

The City of Washington at N. Y.

FURTHER DETAILS OF HER NEWS.

NEW YORK, June 7

The steamship City of Washington arrived at 1 o'clock this morning.

ALESSANDRIA, May 21

The Austrians, about 15,000 strong, attacked the advance post of Marshal Baraguay de Hilliers. They were driven back by General Forey's division, which behaved admirably, and carried the village of Montebello, after a fierce combat of four hours duration. The Piedmontese cavalry, commanded by General Sonnaz, displayed extraordinary energy. We have made 200 prisoners, one of whom is a Colonel, and we have from 500 to 600 killed and wounded. Gen. of Brigade, Bouret, infantry, and commandant Duckot are killed. Colonels Guy, De Lespart, De Bellefonds, Conseil Dumesnheil, and commandant Sacretelle and De Perussac, are wounded.

The Austrians are in full retreat since last evening. The loss to the enemy reaches 2,000 men.

The Vienna correspondent of the London Times says that the Austrian force consisted of three brigades and their loss was probably about the same as that of the French.

TURIN, May 23

Yesterday the enemy appeared in great force at Palestro, with the object of obstructing the march of reconnoitering parties which had taken the direction of the Sesia by order of the King of Sardinia.—The enemy's artillery was however, silenced in every part.

The Austrians have shot an entire family of 8 persons in whose house Austrian guns have been found.

The French had occupied Casteggio, where they are fortyfying themselves.

A despatch dated Vienna, May 20, says that at noon of 21st inst, about 15,000 of the French and Sardinian army attacked our troops, numbering 3,000 at Vercelli. Our men retreated fighting to Orleano.—At this place two other Austrian brigades hurried to the rescue, and threatened the enemy's flanks, which retired across the Sesia to the western side of the river.

It is stated that 20,000 Austrians are about to be concentrated in Vorarlberg.

It was reported in Switzerland that all the Austrian detachments on the Lago Maggiore had withdrawn.

An Austrian despatch says that precaution had been taken against Garibaldi, whose intention it was to cause Como to revolt.

ENGLAND.

All the London papers give credence to a report that Lord Palmerston and Lord John Russell had come to a general agreement on the subject of Parliamentary reform and foreign policy, and they predict that the Derby Government will be compelled to resign soon after the re-assembling of Parliament.

Kossuth had addressed another large meeting in favor of the neutrality of England at Manchester. He intimates that he should probably soon be in his native country. It was reported that he was the President of a Hungarian committee just established at Geneva, the object being to encourage desertion from the Austrian ranks.

The Canard Hungary had sold four of their screw steamers to the Spanish Government and they are to be replaced by vessels of greater power and size.

The siege fleet was firing out at Toulon. It was to consist of ten screw gun-boats, suitable for the shallow shores of the Adriatic.

Accounts from Hungary are extremely alarming, and there must soon be a terrible struggle. Fearful atrocities are not made. The country is full of Russian agents, who act almost openly.

The Vienna correspondent of the Times, says it was credibly reported that Prussia would soon place a corps d'armee on the lower Rhine, and two on the eastern frontier.

A general insurrectionary movement is being organized through all the provinces in the Turkish Empire. It is supposed to be favored by foreign influence.

THE LATEST.

BREST, May 23.

It is reported from London that Garibaldi with his 3,000 men had barricaded himself in the town of Biella, but is without cannon. The Austrians posted in the neighborhood are provided with artillery, and a fight has commenced.

The fleet of Tunis has offered two auxiliary regiments to Piedmont.

The Emperor passed several hours at Voltera. Nothing is yet decided respecting the departure of the troops.

The Times alludes to the designs on the part of the Viceroy of Egypt to take advantage of any disturbance which may arise in Turkey, for the purpose of obtaining, if not independence, at least a large measure of authority. The influence of France for the moment is supreme, but England will allow of no trifling in the matter; the slightest sign to evade the treaty of 1840, will bring down on the Viceroy the whole weight of England's power.

A San Francisco letter says: "It does one good to see how rapidly the Chinamen are becoming civilized under the tuition of Americans hereabouts. I saw four coming home from a dash on the road, yesterday, behind a pair of fast horses, all very drunk, smoking cigars and giving other evidence of progress. The one that was driving made a fulcrum list of it.—He persisted in standing up in the carriage, putting one foot on the dasher.—Another behind him hooting taut on the pig-tail to steady him, all being in a high state of enjoyment and going at a 2:40 gait."

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

Dr. Coggswell's New Medical Salt, instead of the Doctor's remedy for all ills, has control over but one ill, but that one with, and accomplishes that one thing, to wit: subdues inflammatory diseases, whatever be the form or locality, whether in the head, the chest, abdomen, extremities or skin.

Now the secret lays in the peculiar excellence of its action, which is mild, but immediate and strength, it never fails. Some have likened it to the ice, that operates by freezing an inflammation of the fluids in the parts, the want of which is the sole cause of inflammation.

Notice To Invalids! The following forms which the intelligent reader assigns, and many not here mentioned, that have more or less fever or pain, are speedily subdued by the *New Medical Salt*, many being relinquished by water, to wit: Brain Fever, Delirium, rush of blood to Head and parts, Eye, inflamed eyes, sore, smarting and Ear, Neuralgia (pain) affections, Erysipelas, Scrofula, Pleurisy, Asthma, Costiveness, Dyspepsia, Venereal Disease, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

Dr. Coggswell's New Medical Salt seems, like the Divine mercy, an extraordinary interference over the other and ordinary providings, in a gentle manner of admonition solicitation to the sufferer, that a discontinuance in action of pain as the heat, pain and fever disappear.

Dr. Coggswell's New Medical Salt does not operate to change pain to opium pain, but equalizes the fluids by removing them from the spot that the inflamed vessel contains, but excretion, stimulants may be obtained from any Druggist, who has them valuable medicine for sale.

Dr. Coggswell's New Medical Salt, that is Genuine, Ask any Druggist about the *New Medical Salt*

Ask your neighbors about the *New Medical Salt*. It will pay; if not ask the contractor of the *New Medical Salt*.

Dr. Coggswell's New Medical Salt is for Sale in Batavia by H. W. Fellows and by druggists throughout the United States, wherever the Herald is to be seen. Orders, enclosing money (from all the country Physicians, &c. &c.) Dr. Coggswell will fill by the New Medical Salt, for and estimonial and directions and circulars.

Dr. Coggswell's Antiphlogistic Salt.

ASTHMA PACKAGES, $1.00; Cancer Specific sent by mail, free of expense on receipt of price.

Invalids with chronic or long standing diseases, would advise to procure a chronic package.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for the every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the extirpation of this foul disorder from the blood, and the rooms of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BOILS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, all COMPLAINTS ARISING FROM VITIATED or IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

are so compound that disease within the range of their action can rarely withstand or elude them. Their great searching properties search out and expel and invigorate every portion of the human organization, correcting its disorders, and curing its host of maladies. As a consequence of these properties, the invalid who is bowed down with pain or paralyzed debility is benefited by a remedy at once so simple and positive.

But only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent from whom the following certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even dangerous diseases of the lungs by its use. Where else tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the *beneficial value* of this Discovery—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

An Sure Remedy in Consumption

as Catarrh or in Intermittent Fever, but also

as Effectual a Preservative

as Vaccination in Small Pox.

"In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.

"Out of twenty-two cases in the first or last stage, treated at my Dispensary, during the past year, *eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—in whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No word or other drug should be combined with them, or taken at the same time.

☞ Price $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts for sale in the preparation. Also, bottles in concentrated solution ready for use, when specially ordered. Sold wholesale and retail at the Sole General Depot for the U. S., 47 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 90 MAIN STREET,

(Up stairs, Up Private Entrance), Buffalo, N. Y.

A NEW, SPEEDY, AND MOST SUCCESSFUL REMEDY FOR THE

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Medicines powerful to a fearful extent in exhausting disease in that fearful malady, the seminal vessels, annually to an early grave. These diseases are very imperfectly understood. Their several manifestations of symptoms are Nervous Debility, relaxation and enfeeblement; Diseases, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great palpitation of the heart, nervous trembling and sore throat; clearing of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, generally pains in various parts of the body; pains in the back and limbs, rushing, tightness or indigestion, irregularity of the bowels, deranged secretion of the kidneys, and other glands of the body, as Incontinence or Water Brine, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in almost nine out of every one hundred cases all the above named disorders and a host of others, not named here, have their seat primarily in the sexual organs, and arise from manifold exhaustions and excesses, a state of morbid principle, hence the want of success on the part of the most learned.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, which act wherever or patients. The facilities are such, that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true pilot star through life.
